

Deanna Smith

I was born in Gilbert, AZ the first of three brothers and two sisters. Around the time I turned 12, my dad moved the family to Cheney, WA in the hopes of better job offerings. Being on the eastern side of Washington, we got our fill of snow and ice (quite the change from the Arizona heat). About two years later, the family moved for the final time to Cameron Park, CA. I went to Marina Junior High, then graduated from Oak Ridge High School. After a semester at American River College, I was accepted at Ricks College in Rexburg, ID. Back to snow country I went for two years. While there I studied Office System Management and received my Associate Degree.

After returning home from college, I walked into Hodnett Insurance Services looking for a job and was hired on the spot. I am now going on seven years of employment with Hodnett Insurance Services. In December 2001, I got married. Then in May of 2005 we had a daughter and in April of 2007 we had a son. Somewhere in the middle of all that I received my Life License although I do not actively sell insurance.
